

Stay safe online with eero Plus.

eero Plus is a premium subscription service that provides an additional layer of digital protection for your personal information, connected devices, and family — both on and off your home network.

2016 FACTS*

- Over 1B identities were exposed — that's 1/7th of the world's population
- 357M new malware variants were released — that's 1M new online threats released every day
- 98.6M bots were online — that's 4x the population of Australia

* 2017 Internet Security Threat Report." Symantec. Symantec Corporation, 22 Apr. 2017. Web. 07 June 2017.

FEATURES

VPN

VPN with the encrypt.me app to browse the web anonymously, privately, and securely at home or on potentially insecure public WiFi — like at cafes and airports.

1Password

A password manager for the entire family via 1Password (up to 5 accounts) to safely create, store, and share unique passwords for all your logins.

Malwarebytes

Anti-malware software from Malwarebytes that will scan, clean, and protect your computers and Android devices from viruses, ransomware, and more — even when you're away from your eero network.

What you get with eero Plus:

	eero Plus	eero
Standard router	✓	✓
Firewall	✓	✓
Regular, automatic software updates	✓	✓
WPA2-only encryption	✓	✓
End-to-end third party security tests	✓	✓
One-time passwords	✓	✓
Block suspicious devices	✓	✓
Anti-malware	✓	
Anti-phishing	✓	
Anti-ransomware	✓	
Anti-virus	✓	
VPN	✓	
Password manager	✓	
Ad blocking	✓	
VIP support	✓	

Advanced browsing protection

By checking the sites you visit against a database of millions of known threats, eero Plus can help prevent you and your family from unsuspectingly visiting malicious sites.

Content filtering

eero Plus flags sites that contain violent, illegal, or adult content and allows you to choose which types of sites your kids can visit. Easily enable parental controls across multiple devices in the eero app.

Ad blocking

Ad blocking (beta) blocks ads on every device connected to your network with just a tap.

PRICE

\$99 / year (or \$9.99 per month)

Purchased individually, these services would cost:

Advanced browsing protection and content filtering	\$99 / year
encrypt.me VPN	\$149 / year
1Password	\$60 / year
Malwarebytes	\$60 / year
Total	\$368 / year

GROWING EERO PLUS

We've focused eero Plus on digital security and privacy because they're key to a safe and connected home, but every connected home needs a broader suite of services — from data storage to entertainment. eero's ability to bring fast, reliable WiFi to every corner of your home sets it up to expand beyond security and deliver services like this in the future.

Subscribe to eero Plus in the eero app today or learn more at eero.com/plus.
