

Nate Hardison, CTO (Hardware)

Nate manages eero's hardware and embedded systems teams as CTO. Prior to eero, Nate was the second employee at Parastructure and worked as a preceptor in computer science at Harvard. Nate's research has included network algorithms and security. He also has a passion for linguistics, and speaks Italian, Spanish, and Mandarin. Nate grew up in Boise, Idaho, where he worked as a whitewater rafting guide during the summer. He has a BS in Symbolic Systems with a concentration in Natural Language and a MS in Computer Science with a concentration in Networking and Security, both from Stanford.
