

### **Amos Schallich, VP of Engineering (Software)**

Amos manages eero's cloud infrastructure, data analytics, and mobile teams as VP of Engineering. He previously worked at Tagged and BigTent, where he focused on backend server development and scaling. Amos grew up in Mt. Shasta, California, and studied large-scale distributed systems at Stanford, where he met eero co-founders Nick Weaver and Nate Hardison. Amos currently lives in San Francisco with his fiancée and two cats (Agatha Kittie and Angela Lanspurry). Amos has hiked over a thousand miles of the Pacific Crest Trail and was a Division I rower.
